# Office of Undergraduate Education

Georgia Tech

OUE's Mission

The Office of Undergraduate Education (OUE) is a unit of the Provost's Office and is led by the Vice Provost for Undergraduate Education. OUE works to develop an intellectual community at Tech and to foster faculty/student interaction on campus. OUE challenges students to become accomplished learners who are able to make meaningful connections among work, study, and community. We connect curricular and co-curricular offerings to assist students in developing a strong foundation for success, during college and after.

Programs & Services

OUE's departments were created to enhance your time at Georgia Tech. Whether you need help with a challenging course, want to identify research opportunities, or find a co-op or internship position, OUE can help. Learn more at **oue.gatech.edu**.

Academic Success & Advising
oue.gatech.edu/success-advising

Academic Success & Advising creates and implements a comprehensive vision around academic success. It brings together OUE's departments that focus on advising, tutoring, pre-graduate advising, and first-generation student resources. Core departments include:
- First-Generation Student Initiatives
- Pre-Graduate & Pre-Professional Advising
- Tutoring & Academic Support
- Undergraduate Advising & Transition

High-Impact Learning Initiatives
oue.gatech.edu/high-impact

High-Impact Learning Initiatives oversees the delivery, data-driven assessment, and continuous improvement of undergraduate high-impact learning initiatives in partnership with campus partners and academic units. Core programs include:
- Undergraduate Research
- Student Innovation
- Undergraduate Co-op & Internships
- Transition Seminars
