## Checklist for Connect<sup>2</sup>Tech

- Ask one student their name, how their day is going and give them a warm OUE greeting; stop to really listen; ask a follow-up question (if appropriate); show genuine interest in getting to know them
- Give students merch (if available, stickers, phone wallets, etc.) and tell them about the OUE org on the merch. Example, if you give a student an InVenture Prize sticker talk to them about it.
- Invite a colleague (outside of OUE) to complete one item on the Connect<sup>2</sup>Tech checklist
- Invite a student over to chat during the Resource Fair, introduce yourself and explain where you work at OUE and what you do.
- Find a way to use OUE student leaders/assistants (Tutors, GT1000 Team Leaders, Advisory Board members, etc.) to connect with incoming students
- Invite a student to an OUE event/program occurring this summer or fall
- Successfully get a student to sign up for one of your department social media accounts and @gtoue
- Help a lost student/parent/guest find their way or answer a question for them (Bonus if you are able to plug OUE in your answer 😊)
- Start off an info session by saying how excited you are for students to be there; during the session ask the students questions and give out prizes
- Thank a colleague for the effort they make to build relationships with students; tell them it makes a difference.
- Other OUE Connect<sup>2</sup>Tech idea you implemented: \_\_\_\_\_
